* Premium install charge is for larger / business properties and is **extra** to the standard new provision installation cost, it helps secure the engineer's time for longer on site. It is mandatory for all business installs.

FTTP premium site visit will include:

- Up to 30 metres internal wiring
- Connect up to 2 more devices
- Conduct Wi-Fi analysis in up to 3 rooms
- Move router to provide best Wi-Fi coverage and test router
- Install up to 2 data extension kits.

A **SOGEA** Premium site visit will include:

- Where an NTE5 (Network Termination Equipment for an Access Line) exists, will connect the Customer/EU provided router to the NTE5
- Where no NTE5 exists, will install a NTE5 using up to 30 metres internal wiring beyond the entrance to the EU premise and will connect the Customer/EU provided router to the NTE
- Connect up to 2 more devices
- Conduct Wi-Fi analysis in up to 3 rooms
- Move router to provide best Wi-Fi coverage and test the router.
- Install up to 2 data extension kit

**Advanced install charge is for complex / inhabitable properties and is extra to the new provision installation cost.

NB The above costs **do not** include extra construction charges which may be required or any unforeseen costs which may be incurred with unique installations or require specialist site visits.

Extra charges will be quoted by BT and agreement is required by our clients before any installation takes place.

*** Magrathea managed order service is a service provided by Magrathea and will be automatically applied for complex or time critical orders. This will be charged for any premium or business installs, if the order becomes delayed or the client requests a more focussed service and our team need to regularly engage directly with client and supplier rather than simply relying on automated systems.

BT WHOLESALE MONTHLY PRICE LIST FOR SOGEA AND FTTP LINES ONLY

(minimum monthly spend requirement of £100 per month across all inbound services)
