
WLR (Wholesale Line Rental)

Our WLR enables you to provide own brand fixed line services to your customers and bill them for line rental directly.

The service is designed for telecommunication providers who would like to offer their clients flexible pricing and a more complete package. In particular this is ideal for combining with a broadband service or with our Carrier Pre-Select option so all calls can be handled under the same account.

Why choose Magrathea for this service?

- A straight forward setup process, we can have you providing fixed lines in just a few short days. This service goes hand in hand with our CPS offering, making it simpler to manage your supplier relationships for line and call services.
- We provide you with access to a simple, real-time, web portal giving you full control and visibility of your orders as well as live line testing and the ability to book engineer appointments.
- Our pricing is competitive and transparent.

How it works

WLR3 lines are provided on the Openreach network. Openreach provide, maintain and repair the lines leaving you to concentrate on selling and adding value for your Customers. By using our portal to manage your requirements the process is fast and easy leaving you to concentrate on managing your Customer.
